Foconis Payment - Your strong partner for instant payments

Nearly 40 years of experience, 100 % innovation

As an established player in payment transactions, we combine the best of two worlds: the DNA and customer focus of a traditional SME with the progressiveness of a modern software company.

We have already applied our top expertise and in-depth understanding of processes to a wide range of projects at over 100 institutions and banks. Always with an eye on the most efficient handling of payment transactions and optimised processes.

Right at the start of TIPS in 2018, we were the first to connect two German banks to this service as a frontrunner. These banks processed the second ever European payment message via TIPS.
